

## The Definitive Library for Dance Music Production.

The SRX-05 Supreme Dance Wave Expansion Board is *the* must-have collection of dance music sounds. Unlike previous expansions, Supreme Dance is focused on individual drum sounds and instruments for more creative freedom: 818 new waveforms, 312 patches and 34 rhythm sets. And these sounds have been severely pumped up in the Roland Sound Labs, so they're ready to go in your next track—whether it be hip-hop, house, trance or other dance style.

This comprehensive collection includes newly sampled synth sounds—from classics to modern Synths like the JP-8000—plus 82 hits and stabs, unique effect sounds and a collection scratches performed by “legit” turntablist DJs! And all of these sounds have been programmed to take advantage of the XV-Series’ outstanding onboard effects.

### All the Drums You Need

Roland understands that drums are the foundation of good dance tracks. That’s why we spent time with top engineers and producers around the globe learning the secrets to killer drums. The result is the largest collection of individual drum sounds ever offered on a Roland expansion board. And these sounds don’t need any additional processing; just program your beats and let there be groove!
